CHAIRMAN'S MESSAGE

Welcome to the Asian Heritage Celebration and award banquet. This event is celebrated annually during the Asian Heritage Month in May. This month is an opportunity for us to celebrate our rich culture, family values and unity.

We gather here today to celebrate our diversified heritage as a unified Asian community and recognize those who have spent time and energy to serve our community. We celebrate our Asian heritage without any social, religious and territorial issues which Asian countries, our mother lands, constantly face. Thank you, America, for an opportunity to be Americans.

We immigrated to this country looking for better life and economic opportunities. We have come a long way since 1960's where we had to deal with glass ceiling, social and economic discrimination and social harassment. Although such issues are diminished, we now face economic realities of refugees who came here to escape religious or political persecution. Asian hate is on the rise and hence it is important to have an organization such as this not only to bring our issues and concerns in the forefront of main stream but to help our population to integrate with the main stream while maintaining our heritage.

It is also important to communicate our contribution to the growth of this nation to achieve social harmony. Immigrants create jobs and make substantial contribution to local economy and social values. We should be proud of such accomplishment.

As this nation is going through transformation, we must work together and support each other to overcome economic and social impediment

NORTH EAST

Brief History of Asian Pacific American Heritage Month

In the late 19th century, U.S. federal law openly targeted Chinese immigrants. The Chinese Exclusion Act of 1882 prohibited the immigration of Chinese laborers to the U.S. for 10 years, and was renewed by the Geary Act, which additionally required immigrants from China to carry permits at all times or face possible deportation. (It was not until more than 60 years later, in 1943, that Congress repealed the exclusion — and even then the law allowed only 105 Chinese people to enter the country each year.) The month of May was selected for two reasons: First, to commemorate the arrival of the first known Japanese immigrant to the U.S. on May 7, 1843; secondly, to honor the completion of the transcontinental railroad on May 10, 1869 — the building of which up to 20,000 Chinese workers participated in.

. In 1978, Horton and former California Rep. Norman Mineta introduced a bill that called for the week beginning on May 4 — which would include the dates of the two key events — to be designated as Asian Pacific American Heritage Week. After the joint resolution was passed by Congress, President Jimmy Carter signed it into law and thus the commemorative occasion began as a week.

In 1990, the commemorative week expanded to a commemorative month after a new bill was passed by Congress and signed into law by President George H.W. Bush. Even then, the proclamation did not include an annual designation, and the president had to reauthorize May as Asian Pacific American Heritage Month annually in the coming years. It was not until 1992 when Horton, along with multiple co-sponsors, introduced the legislation that would permanently designate May as the commemorative month — a legislation that became law after receiving unanimous support in Congress.
